With tens of thousands of stocks and mutual funds to choose from, you need tools that allow you to zero in on those investments that have a likelihood of increasing in value. Advanced filters on GlobeinvestorGOLD provide an array of preset filters and tools that help you separate the winners from the losers. Or you can create your own filter by using our Advanced Filters for funds or stocks. For stocks, over 60 separate data items or ratios are available for filtering purposes. Once you run a filter, you can choose a variety of reports and sort the results.

For example, the following Quick Filter shows a set of TSX stocks which carry a Globeinvestor 5-Star rating and are also rated as a strong buy by industry analysts.
